RE: Covid-19 Update

In line with government instruction, West London Gutters are only engaging in **essential works** that are required to keep your property and more importantly, you and your family safe. We are doing so whilst adhering to government guidelines, enforcing the appropriate measures including social distancing. If you feel your works are essential, contact us today to discuss further via any means below.

WhatsApp - 07307 333070

**We're here to assist in ensuring your home is safe to stay in through this difficult time!**

Of course, West London Gutters are pleased to be able to continue managing all **new enquiries big and small**. We will be utilising photographs, videos and/or live video calls where possible to survey and price works accordingly. Knowing you've got an issue in hand can alleviate the stress. This is why we are taking bookings for works unable to be completed at this time and scheduling for **immediate commencement** as soon as government guidelines allow!

**Let's all work together in getting through this pandemic!**

Yours Sincerely,  
Jimmy Kinson  
Managing Director
